Financial Affairs.

Financial affairs were extremely quiet yesterday, the interest taken in the election so seriously interfering with business that the Bankers had nothing of consequence to report. Money continued easy, and approved Paper was readily disposed of at the Discount-houses at 10@12 per cent. Currency was in good supply and rather augmenting at the different Bankers in Third-street, Eastern Exchange remained firm at % Eastern Exchange remained firm at 36 buying and 36 premium selling, few dealers paying 40c. even on New York. Several of paying 40c. even on New York. Several of the assorting-houses have considerable re-turns from Banks, whose issues they have sent home, on their way here, and do not therefore feel inclined to purchase largely. Gold was firm at 14@3% premium, and New Orleans Exchange at 14 discount@par, and 14@3% premium. No Time-bills were offered, but the rates were without varia-tion.

RIVER NEWS.

The Ohio opposite this port has been swelling since our last issue more rapidly than on Monday, having risen, during the twenty-four hours ending last evening, about four-teen or fifteen inches making, according to the report from the Water-works, a channel-depth at this port of pearly eight entitle. depth at this port of nearly eight and a half fect. At Pittsburg the river was rising yea-terday, with twelve feet water there at noon.

Yesterday was delightful, decidedly cool in the morning; but sufficiently warm and very pleasant until evening, when the tem-perature became lower, though not too low for comfort.

Business on the Landing was quite animated yesterday until noon; but in the afternoon the excitement of the election diminished much of the activity, and for the remainder of the day affairs were dull. Rates of freight were unchanged from our last quotations.

Yesterday's Louisville Courier contains the following:

the following:

The river continues to rise slowly but steadily, with three feet four inches in the Canal last evening by the mark. Buring the previous twenty-four hours the river at the headled the Falis had risen inlly two inches, which is half a foot at Portland, making nearly six feet water on the bar at present. The weather has turned snadeally cool, and during the greater portlon of the day it was windy.

The Tempest arrived from Memphis early restorday morning, and to Hodges and Dalton, the clerks, we are indebted for a manifest and memorandom. She reports six feet water in the Massissippi, and only three feet in the Ohio, with the river falling from Cairo up. She reports having met the fed. Rover at Grand Chain, Silvey Wave at Walker's Bar, Economy and Mariner at French Island, and aboat, name unknown, at Oil Creek all hard aground, with but little prespect of getting off.

The Ohio River from here to Cairo is now in a wretched condition, and all the bars are above water, and none but the very lightest boats are able to get through, and it is with great difficulty that they succeed in getting through without grounding. The Enna, when she arrived was only drawing two and a half feet water, and they had to do a large amount of sparring to come through.

We copy the following from the Paducah

We copy the following from the Paducah (Ky.) Herald of the 6th inst: The steamer Scotland, was, a day or two since, sold to Capt. Hopkina, of St. Louis, for the sum of 59,500. She is now lying at our landing, and will be mmediately placed in good repair and enter the St. Louis and New Orleans trade.

The Mississippi was stationary at St. Louis at last accounts by mail, and five and half feet to Cairo, four and a half feet to Keokuk and two and a half feet on the Rapids. In the Missouri there are only three feet three inches, and the Illinois is very low and difficult to navigate.

Friday's New Orleans Delta remarks:

The levee resterday was very brisk and arrivals numerous. The upper landing especially begins to wear a more animated book, and we hope in a few days to hear of as good tidings from the lower landing. Among the arrivals we regret to say is the B. J. Adams. She unfortunately fost her chimneys in the last storm, and had to return to part to provide herself with a new pair. The Ed. J. Gay, from Remphis, came is with a fise load of cotton. The T. L. McGill and Cora Anderson came in from St. Lonia. The Mary Keene, from the Bends, had also a fair show. The stoamer Silver Hees sank at Carroliton during the storm on Teesday. She is somewhat of an unfortunate crait. She was originally built for the upper country trade, but never made an immense fortune for her owners. She then was sold to the Lafourche and Count Transportation Company, was run by them about one season, has been chartered out for the Opelousse and Atchafelays trade, and has for the last six months been waiting for a psychaser.
